New York Stock Market

New York, March 7.—An upward movement early in the day, which increased the price of some securities as much as one point, was the only change of consequence to-day. The market was firm up to the last hour, when prices receded somewhat, but trading was unusually dull.

Advances of the forenoon probably were made in obedience to the influence or further short covering. Bull operations did not attempt to force a further rise, and the stagnation which prevailed at the higher prices seemed to show that the market was in deadlock, neither faction wishing to assume the offensive at the present. Goold issues were strong, especially Missouri Pacific and Wabash preferred, and buying of these stocks was regarded as a forerunner to development at the annual meeting of Missouri Pacific next week, when new interests will assume control. Norfolk and Western advanced on a revival of the report that the Pennsylvania is to guarantee an increased dividend rate, but the report was received with reservations in well informed quarters.

rate, but the report was received with reservations in well informed quarters.

Industrial stocks, which are supposed to be affected most keenly by tarin discussion, were watched with more toan usual interest to-day. American Woolen sold at a substantial advance in the fore part of the session, in spite of the showing made in the annual report, presented to-day, which recorded a decrease of \$1.800,000 in net profits. The statement of the president of the company referring to radverse political conditions and partisan attacks upon the protective fariff, attracted attention by reason of possible tariff legislation at the forthcoming session of Congress.

The action of officials of the Eastmittent trunk and deciding to cancel their increased freight tariffs was accepted as a favorable development, in that it apparently brings to an end the long perilds of uncertainty which followed the movement for higher freight rates. To what extent the policy of retrenchment will be carried out is still a matter of conjecture.

Building returns to: February from the larger cities showed a further contraction, having decreased by 16.5 per cent, from January of this year. Dessened activity in New York, lowever, largely explains the change. Chief the second of the contraction of the co

Hearing Scheduled.

The matter of freight rates on the Virginia Air Line, a branch of the Chesapeake and Ohio, is to be heard to-morrow before the State Corporation Commission. The petitioners are the Fluvanna County Farmers' Association and the State Farmers' Institute. They claim that the rates charged them, for instance, on empty fruit cans from Clifton Forge to points on the line, and thence to Richmond when canned and packed, are higher than either on the main line or on the Buckingham branch. Therefore, they ask for a readjustment.

On March 22 station facilities at Elon, on the Southern, will be under consideration.

Privates Discharged. Orders were issued yesterday by the Adjutant-General discharging Privates Marion C. Sutton and Joseph Mansini, of Company C, First Regiment, Richmond, for the good of the service.

NEGRO ESCAPES BUCKSHOT, BUT DIES OF FRIGHT

(Special to The Times-Dispatch.)

Harrisonburg, Va.. March 7.—After midnight Sunday night William Chittum fired a load of buckshot at a fleeing burglar, who had tried to enter the Chittum home, at Timber Ridge, Rockbridge county. The next morning Mr. Chittum found a dead negro lying in the yard and thought, naturally, that he had killed him. The coroner's jury, however, could find no marks of a bullet, and his death was attributed to heart failure. It is believed that Mr. Chittum actually scared the negro to death when he fired.
